

# Strategy on a page

## Mission

To educate, empower, and inspire teachers, students, and community to take action on climate change for a sustainable future.

## Values

1. **Connect Collaboratively and Inclusively**
2. **Inspire and Empower Systems Thinking**
3. **Lead with Ambition and Humility**
4. **Design for Context and Place**

## Vision

Communities in Victoria are collectively educated and collaboratively shaping an environmentally sustainable society

### Thriving Members

1. Improve membership offerings to effectively support members in delivering environmental education
2. Increase the impact of knowledge capital within EEV's membership through facilitating communication and collaboration

### Thriving Partners

1. Increase engagement between members and partners to improve environmental education
2. Improve environmental education through collaboratively developing and delivering funded programs
3. Increase environmental education outcomes at schools with meaningful partner volunteering

### Impactful Grants

1. Increase capability to deliver exemplary outcomes with grant-funded projects
2. Improve management and transparency of grant delivery

### Impactful Contracts

1. Increase capability to deliver exemplary outcomes through contracted projects
2. Improve management and transparency of contract delivery
